DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, the claimed "a signal from the demodulator" and "an output signal from the demodulator" is not clear which demodulator it is referring to, the analog/NTSC demodulator or the digital/QAM/8VSB demodulator, rendering the claim indefinite.

Also in claim 2, the claimed "the RF gain adjust amplifier receives, as input, the IF output signal when the system is in a terrestrial mode" is not clear which IF output it is referring to, the IF output from amplifier 26 switched by the switch 47 or the IF signal input to the SW 44 from the power detect unit 48, which again renders the claim indefinite.

Thirdly, the claimed IF gain adjust amplifier (40) receives a filtered IF from the SAW filter 36, and an output signal from the digital demodulator; however, the IF gain adjust amplifier 40 is not seen to receive an IF output signal (presumably unfiltered IF), which renders the claimed indefinite as well.

Allowable Subject Matter

3. Claims **4-9,12-15** remain allowable over the prior art for reasons already stated in the record.
